

Project Title	Funding	Institution
ACE Network: A comprehensive approach to identification of autism susceptibility genes (supplement)	\$442,627	University of California, Los Angeles
3/3-Sequencing autism spectrum disorder extended pedigrees	\$160,000	University of Pennsylvania
Simons Simplex Collection support grant	\$29,752	University of Washington
Sequence-based discovery of genes with pleiotropic effects across diagnostic boundaries and throughout the lifespan	\$0	Massachusetts General Hospital and Harvard University
Linking autism and congenital cerebellar malformations	\$0	University of Chicago
Autism Genome Project (AGP) Core Consortium	\$0	Nationwide Children's Hospital
Autism Genome Project (AGP) Core Consortium	\$0	University of Pittsburgh
RNA expression patterns in autism	\$710,306	Boston Children's Hospital
Autism Genome Project (AGP)	\$10,000	Autism Speaks (AS)
Simons Simplex Collection Site	\$0	Vanderbilt University
Simons Simplex Collection support grant	\$30,000	University of Illinois at Chicago
Mitochondria and the etiology of autism	\$437,500	The Children's Hospital of Philadelphia
Understanding the genetic basis of autism	\$6,557,422	Cold Spring Harbor Laboratory
A genome-wide search for autism genes in the Simons Simplex Collection	\$415,782	Yale University
Investigation of DUF1220 domains in human brain function and disease	\$376,668	University of Colorado Denver
Whole-exome sequencing to identify causative genes for autism	\$350,000	University of California, San Diego
Next generation gene discovery in familial autism	\$688,392	University of Washington
ACE Center: Rare variant genetics, contactin-related proteins and autism	\$324,189	Yale University
Simons Simplex Collection Site	\$75,000	University of Washington
Simons Simplex Collection Site	\$96,641	Yale University
Simons Simplex Collection support grant	\$30,000	Vanderbilt University Medical Center
1/3-Sequencing autism spectrum disorder extended pedigrees	\$299,000	University of Utah
ACE Network: A comprehensive approach to identification of autism susceptibility genes	\$2,631,440	University of California, Los Angeles
Genetic epidemiology of complex traits	\$559,192	National Institutes of Health
Simons Simplex Collection Site	\$123,678	University of Michigan
2/3-Sequencing autism spectrum disorder extended pedigrees	\$231,688	University of Washington
Genomic hotspots of autism	\$261,033	University of Washington
Genetic basis of autism	\$0	Cold Spring Harbor Laboratory
A genome-wide search for autism genes in the SSC Baylor	\$20,344	Baylor College of Medicine
Simons Simplex Collection Site	\$0	Emory University
Simons Simplex Collection Site	\$0	University of California, Los Angeles
Population genetics to improve homozygosity mapping and mapping in admixed groups	\$52,190	Harvard Medical School
Simons Simplex Collection Site	\$0	University of Missouri

Project Title	Funding	Institution
Simons Simplex Collection Site	\$0	Baylor College of Medicine
Finding recessive genes for autism spectrum disorders	\$349,999	Boston Children's Hospital
Simons Foundation Simplex Project Collection Site	\$0	Weill Cornell Medical College
A genome-wide search for autism genes in the SSC Brown	\$50,000	Brown University
Simons Simplex Collection Site	\$0	University of Illinois at Chicago
Whole exome sequencing of Simons Simplex Collection quads	\$1,835,440	University of Washington
Genomic influences on development and outcomes in infants at risk for autism	\$498,341	University of Alberta
Illumina, Inc.	\$717,504	Illumina, Inc.
Whole exome sequencing of Simons Simplex Collection quads	\$2,110,073	Yale University
Autism Genome Project (AGP): Genome sequencing and analysis supplement	\$50,000	The Hospital for Sick Children
Simons Simplex Collection Site	\$44,598	The Research Institute of the McGill University Health Centre
Simons Simplex Collection support grant	\$30,000	Yale University
The frequency of polymorphisms in maternal- and paternal-effect genes in autism spectrum	\$152,545	The Pennsylvania State University
Complex genetic architecture of chromosomal aberrations in autism	\$92,917	Massachusetts General Hospital
A genome-wide search for autism genes in the SSC UCLA	\$100,000	University of California, Los Angeles
Genomic profiling of autism families using whole-genome sequencing	\$129,600	Institut Pasteur
A genome-wide search for autism genes in the SSC Emory	\$72,524	Emory University
Integrative genetic analysis of autistic brains	\$200,000	Johns Hopkins University School of Medicine
Novel statistical methods for DNA sequencing data, and applications to autism	\$339,743	Columbia University
Examining the Y-chromosome in autism spectrum disorder	\$175,000	The Hospital for Sick Children
Simons Simplex Collection Site	\$0	Columbia University
Hypocholesterolemic autism spectrum disorder	\$84,549	National Institutes of Health
A genome-wide search for autism genes in the SSC Vanderbilt	\$300,000	Vanderbilt University Medical Center
Cryptic chromosomal aberrations contributing to autism	\$70,524	Massachusetts General Hospital
Dissecting expression regulation of an autism GWAS hit	\$30,000	University of California, San Francisco
Whole Exome Sequencing of Simons Simplex Trios	\$114,106	Yale University
Simons Simplex Collection support grant	\$34,200	Weill Cornell Medical College
Rapid characterization of balanced genomic rearrangements contributing to autism	\$53,942	Massachusetts General Hospital
A genome-wide search for autism genes in the SSC Pittsburgh	\$50,000	University of Pittsburgh
Simons Simplex Collection support grant	\$30,040	McGill University Health Centre- Montreal Children's Hospital

Project Title	Funding	Institution
A genome-wide search for autism genes in the SSC UIC	\$48,419	University of Illinois at Chicago
Simons Simplex Collection support grant	\$30,000	Baylor College of Medicine
Simons Simplex Collection support grant	\$1,430	Columbia University
Identifying genetic variants on the Y chromosome of males with autism	\$50,555	The Hospital for Sick Children
Simons Simplex Collection Site	\$51,656	Boston Children's Hospital
Autism Genome Project Consortium data reanalysis using computational biostatistics	\$60,000	The Rockefeller University
Simons Simplex Collection support grant	\$30,000	Boston Children's Hospital
Simons Simplex Collection support grant	\$30,000	University of California, Los Angeles
Simons Simplex Collection support grant	\$30,000	University of Missouri
A genome-wide search for autism genes in the SSC CHB	\$50,000	Boston Children's Hospital
Simons Simplex Collection support grant	\$30,682	Emory University
